To Whom It May Concern:

My name is Yvette Alicea and I am currently a social worker thanks to a charitable work I did at my church. I am a divorce mother with an 11 years old son, and my mother who is an Alzheimer's patient live with me. I've been a cancer survivor twice, thanks to God.

One day, after so many surgeries, suffering, financial problems, other obligations, and chemotherapy, I was feeling so sad that I asked God about my desire to be in a deserted island; alone and to have an encounter with Him. My body was asking for a spiritual rest. It happened that, on a Sunday during Mass, I received a document in which it was mentioned the same thing I was asking the Lord, not in a deserted island, but rather at a retreat that was describing my desire. What caught my attention the most was that it was for women: "Wise and Successful Woman", and it was based on God's Word.

I registered and, when I received the working tools for my study, together with three (3) personalized CDs, a study guide and workbook already prepared with Bible scriptures, I was impressed. I talked to God and told Him: "You have handed to me what I was desiring for my spiritual enrichment and you talked to me through these CDs." I asked myself: How would the retreat be?" I went to the course, which I named "My Vacation Day with Jesus Christ". WHAT A RETREAT! I could relax, I learned, I also shared my feelings and even received healing. I left that day well prepared, so full of faith, so transformed that all my worries disappeared. I could not cease thanking God for allowing me to enjoy so much this retreat.

I then began to spread the news about this course because I believe that every woman in this planet, who live with so many problems, deserve these gifts of learning and praying. I learned that the more you trust Jesus, the more you learn about Him.

The study guide and workbook has enabled me to continue learning Bible scriptures and now I share these scriptures with my family, friends, and people with problems, worries, disappointments, or sickness; when they call me, and I am able to share with them a particular scripture. I have everybody reading the Word of God.

The difference between this course and other retreats that I have participated in is that in this course you are able to vent and feel relieved of how you feel with your life and have 3 personalized CDs especially directed to you, which keep reminding you the Word of God. There is no chance to be let down, or to live in darkness but to be filled with God's Grace.

My spiritual growth has been so wonderful that my quality of life has improved considerably, and I am amazed at how many wonderful things are happening in my life. I have had the opportunity to pray over my family and my son whenever he gets sick, and it is beautiful to see the Lord's wonders.

As a minister of the Word in the Liturgy, Eucharistic Minister, and being in charge of the Altar Servers, I have been witnessing how much these courses have helped me through Wisdom. Now I can talk about God with confidence, and I have faith in that these courses will help every woman who participates in them to read and practice the word of God as He tells us to.

There are so many women who still don't know Him, others are still trying to agree on doctrinal issues, but there is only one truth: God is Love and His message is real.

Therefore, I recommend these courses, which are to us a great preparation and understanding of God's Word. I assure you that if all women in every Parish participate of these courses; they will be of great personal and spiritual help to them. And not only that, they will also learn to serve the Lord humbly and wisely. It would be a great gift to have Wise and Successful women in our parishes. What do you think?

Cordially,

*Yvette Alicea
God's Servant and
Wise and Successful Woman*
